

Education

Multimedia University, Cyberjaya
Bachelor of Computer Science (Hons. Cybersecurity)

Aug. 2023 - Aug. 2026
Cumulative GPA: **3.76/4.00**

Personal Projects

Schedulr | [GitHub](#) | [Website](#) | [Extension](#)

Aug. 2024 - Present

Simplifies Timetable Management for MMU Students and Lecturers

- Built and marketed a Chrome extension automating timetable imports to Google Calendar and .ics, **gaining 220+ active MMU users**.
- Engineered a **custom web scraper** and conversion algorithm in JavaScript to accurately parse raw data into calendar events.

Homelab

March 2025 - Present

- Designed a **virtualized enterprise-grade lab** using Virt-Manager with 6 VMs: AD Domain Controller, Linux/Windows clients, Postfix server, Wazuh security server, and Security Onion SIEM playground.
- Simulated centralized IT operations (AD, DNS, SMTP), **mirroring real-world corporate environments**.
- Integrated **advanced threat monitoring** tools (Wazuh, Security Onion) for SIEM, EDR, and vulnerability scanning.

Secur-Image | [GitHub](#)

May - Jul. 2024

A security-focused password manager

- Built a **multi-factor authentication system** with RSA, SHA-256, and TOTP via Google Authenticator for enhanced access security.
- Developed a **resilient key management scheme** by splitting RSA private keys between USB devices and a MySQL database.
- Applied **Steganography** (Steghide) to embed encrypted credentials in images, backed by a secure MySQL database.

CTF Participation | [Team Page](#)

Solved challenges on PicoCTF, PortSwigger Labs, OverTheWire, KC7, BTLO; Competed in San Diego CTF, Rentas CTF, SD CTF 2024, and L3akCTF 2024.

Leadership & Community Involvement

MMU Esports Club President | [Club Account](#)

Apr. 2024 - Present

- **Led a committee of 30** to organize multiple large-scale esports events under tight deadlines.
- **Secured major sponsorships** from Public Bank, UniPin, Cove Circuit Crit Esports, and Infinix, elevating club profile and funding.

Hackerspace Assistant Secretary | [Hackerspace Website](#)

Aug. 2024 - Present

- Helped onboard new members and **fostered an inclusive, collaborative tech community**.
- **Organized hackathons and documented members' project progress and idea discussions**, ensuring smooth operations and continuous technical growth.

Technologies & Languages

- Python, JavaScript, Bash, PowerShell, HTML, CSS, Nextjs
- Burp Suite, Nmap, Wireshark, ELK Stack, Virtual Machines, Active Directory, SIEM, Linux

Certification

(ISC)² Certified in Cybersecurity (CC)

Issued Sept. 2023
